Further, Mr. MC GURK also pointed out the fact that the last threatening letter was received in June, 1977, and the possibility exists that the investigation in this matter had brought to the attention of the letters' author the serious nature of such activity.

[REDACTED]

Q32 Accompanying hand printed letter beginning [REDACTED]

Result of examination:

Due to unexplained hand printing and handwriting characteristics, no conclusion was reached if the questioned handwriting and hand printing on specimens Q31, Q32 and previously submitted specimens Q1 through Q30 were or were not prepared by [REDACTED] the writer of specimen K2.

It was determined that the same writer or writers who prepared the questioned writing on specimens Q1 through Q30 previously submitted also prepared the questioned handwriting on specimens Q31 and Q32.

The submitted specimens were photographed and will be returned separately along with the results of the latent fingerprint examination.

Re Chicago airtel to the Bureau, 8/11/78.

For information of the Bureau, reairtel sets forth background information and the basis for reopening this case at that time.

Investigation conducted since reopening this case has included interviewing [REDACTED]. The Laboratory compared the handwriting [REDACTED] with letters received by victims, but was not able to determine whether or not [REDACTED] authored the letters victims received. Additional investigation to identify Unsub has been unsuccessful, and the victims, who have received no additional letters since 11/78, can not furnish the names of any possible suspects.

On 6/8/79, the facts of this case were discussed with AUSA DENNIS D. FISHER, Northern District of Illinois, Chicago, who advised he did not think further investigation was warranted as this is not the type of case which would be considered for prosecution for violation of the Extortion Statute. He cited the facts that the letters are no longer being received, none of the threats contained in the letters were ever attempted to

be carried out, and the victims cannot furnish the names of additional possible suspects, nor do they believe the letters constitute a serious threat to them.

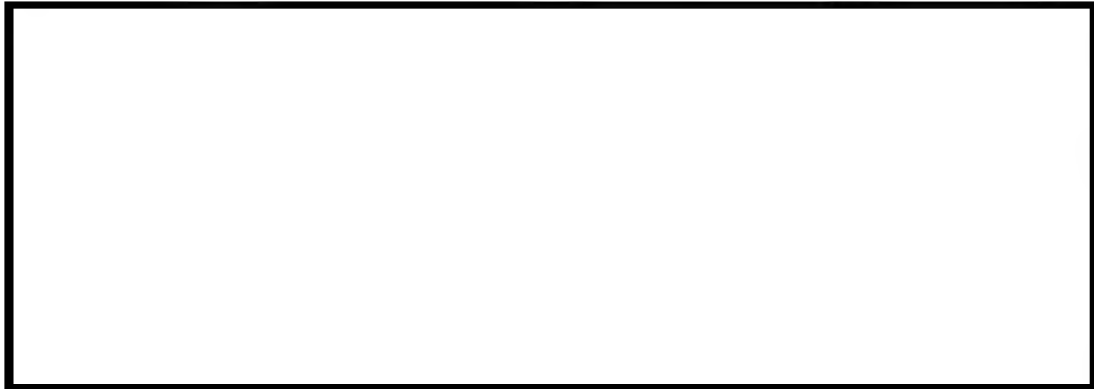

In view of AUSA FISHER's opinion, which has been confirmed by separate communication, no further investigation is being conducted regarding this matter.
